Buddleya Variabilis Veitchiana.

Forcing Hydrangea Arborescens Grandiflora Alba, or Hills of Snow

This beautiful hardy American shrub is the finest addition to this class of plants found in many years. The blooms are very large, of pure snow-white color, resembling a little the hardy shrub so well known, "The Snowball," in color and make up, only they are much larger in size and much more striking. It is perfectly hardy, standing twenty degrees below zero. Strong plants from 2½-inch pots, fine for lining out, 50c per doz.; \$3.50 per 100; \$32.50 per 1000. Heavy field plants, two and three canes, \$1.25 per doz.; \$10.00 per 100. Three and four canes, \$1.50 per doz.; \$12.00 per 100. Four canes and up, extra select, \$2.25 per doz.; \$18.00 per 100.

Hydrangea Arborescens Grandiflora.

The Sensational Deciduous Shrub, Buddleya, Variabilis Veitchiana The Everblooming Butterfly Bush, or Summer Lilac

tracted unusual attention and was greatly admired by thousands who were given the opportunity of seeing the value and possibilities of this new shrub. The Buddleya is a deciduous bush, dying down in the winter. In the spring the top should be cut off quite close to the ground when the plants start to make a new growth from the crowns in a manner similar to the Desmodium. The blooms come from the new wood produced through the summer. Buddleya is one of the most valuable plants, either for border or specimen planting, blooming as it does late in the season and continuing in bloom from the latter part of June until nipped by the frost. It is very rapid growing, and two years will make a large, spreading bush, four to six feet high. It produces long, graceful stems, which terminate in tapering panicles of beautiful lilac-colored flowers that are of miniature size and borne by the hundreds on a flower head which is frequently ten inches long. Being a semi-herbaceous shrub, we recommend covering the roots with manure, leaves, or other suitable material as winter approaches, as this will produce a heavy growth the following season. Strong stock out of 2½-inch pots, fine for lining out, 50c per doz.; \$3.50 per 100; \$32.50 per 1000. Strong field-grown stock, \$1.25 per doz.; \$10.00 per 100.
